Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 6 and 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Itoh et al (USPN 6,006,738) in view of Yamada et al (USPN 6,832,606). Itoh et al discloses a multi-wire saw 10 for cutting a silicon ingot I while supplying a slurry containing abrasive grains and a mixed acid to a wire 14 traveling between a plurality of rollers 12a and 12b comprising a slurry supply mechanism having a holding portion 50 for holding the slurry and a temperature control mechanism 56 for keeping the temperature of the slurry constant and adapted to supply the slurry to the wire 14 on an upstream 42a of a site where the silicon ingot I is cut, a stirring mechanism 52 provided on the bottom of the holding portion 50 (note Fig. 1, col. 2, line 44 to col. 3, line 29, col. 4, lines 1-9). However, Itoh et al does not disclose a holding portion constituting a surface provided with a passage hole allowing the wire to pass therethrough. Yamada et al disclose a holding portion 10 constituting a surface 21 provided with a passage hole 21' allowing the wire to pass therethrough (note Fig. 1-4, col. 3, lines 39-61). It would have been obvious to modify the multi-wire saw of Itoh et al with a holding portion having a surface with passage hole in order to provide the wire saw which can cut the ingot in a good condition for a long time.

Allowable Subject Matter

3. Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claim 6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

6. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
